

QUADRANT LOG FEEDER

- Simple mechanical design. Only two moving parts.
- Singulates a deep pile of long crooked logs.
- Clears broken pieces and debris.
- Easy to install. Requires very little space.
No assembly – ships in one piece.
- Logs up to 90' long, 3"-30", 4"-40" and 5"-50" diameter.
- Automatic operation where logs are deep piled and crisscrossed.
- Proven – More than 200 installations!

US and Canadian patents on all products

**NOBODY HANDLES LOGS
